REMARKS

Following the reception of the Notice of Allowance for this application Applicants noticed that the claim to priority was missing from the specification. However, the priority claim to U.S. Provisional application Serial 60/222,934, filed August 4, 2000, was correctly recorded by the Patent Office at the time of filing of the application.

MPEP § 201.11 III requires the specification must contain a specific reference to the prior application. This should appear as the first sentence of the specification. The present amendment is being filed in order to so comply. Applicants believe this is the only requirement necessary to correct the situation since the claim to priority was recorded on the filing receipt as mentioned in MPEP § 201.11 III F.

Should the Examiner have any questions regarding this amendment, the Examiner is invited to contact the undersigned at the telephone number listed below.

Respectfully submitted,
